Software Engineer Intern — Outfy (*Oct 2025 – Present*)

- Developed engaging animated marketing videos using HTML, CSS, and GSAP for product promotions.
- Collaborated with the design and marketing teams to deliver interactive web animations enhancing user engagement

Data Science and Machine Learning — NASSCOM Foundation (*July 2025 – Sept 2025*)

- Completed comprehensive training covering **data analysis, machine learning models, and AI concepts**.
- Gained hands-on experience in **Python, data visualization, and predictive modeling** through industry-aligned project.

Projects

Portfolio Website — React, HTML, CSS, JavaScript

- Built a responsive portfolio website to showcase projects and skills in an interactive and visually appealing manner.
- Designed a clean, modern UI with smooth navigation, animations, and responsive layouts for seamless viewing across devices.

Face Recognition System — Python

- Developed a real-time face recognition application using OpenCV and Python for detecting and identifying faces.
- Implemented face encoding and comparison techniques to ensure high accuracy and efficient performance.

Skills

Languages: C/C++, JavaScript, HTML, CSS, Python, SQL

Operating System: Linux , Windows

Libraries: React.js, NumPy, Pandas

Behavioral Skills: Team Player, Analytical Thinking, Logical Thinking, Communication

Certifications [View Certificates](#)

- Python Basic Certificate by HackerRank
- GenAI by iHUB Divya Sampark
- Hackathon Brewing Codes by Maharishi University
- Data Science and Machine Learning by Nasscom Foundation

Achievements

- Solved More than 400 Questions On LeetCode. [Link](#)
